### SONG LYRICS

And when you can't sleep at night,  
I want you to remember. Just remember.

And when you see the nice guys lose the fight,  
I want you to remember. Just remember.

Remember how we always found a way,  
To make the music last one more day,  
Just remember.

And whenever they slam shut the door,  
I want you to remember. Just remember.

And when you fear the lion's roar,  
Please remember. Just remember.

Remember how we always found the road,  
And the strength to carry the load.  
Remember.

I want you to remember that the pain will only last a little while.  
And remember that you're somebody's child.  
You're someone's child.

And when you feel you've lost your way,  
I'll help you remember that my love is here to stay.

And when you feel you've lost your way,  
I'll tell you to remember that my love for you is here to stay.

Remember.
