SONG LYRICS

When you walk with me
In the misty moonlight
I feel love.
And when you talk with me
In the sunshine
I feel love.

Yesterday is dead and gone
But these feelings go on and on
When you walk with me.
Tomorrow is fast on the way
But I'll be just fine as long as you stay
And walk with me.

When you walk with me
All of my private places
Begin to show.
And when you talk with me
All the rivers of my secrets
Begin to flow.

Yesterday is dead and gone
But these feelings go on and on
When you walk with me.
Tomorrow is fast on the way
But I'll be just fine as long as you stay
And walk with me.

All over the world tonight
There are so many hearts waiting
And hoping for moments like these.
To them I say
Don't give up or give in
Find a friend
And say
"Hey"
Take a walk with me.
Come take a walk with me.

When you walk with me
I swear I can hear the answer
In the wind.
And when you talk with me
I only care about where I'm going and I don't regret where I've been.

Yesterday is dead and gone
But these feelings go on and on
When you walk with me.
Tomorrow is fast on the way
But I'll be just fine as long as you stay
And walk with me.
